

HEARING FIRST
Powering Potential

Welcome to Hearing First

Dr. Teresa Caraway:

Welcome to Hearing First!

Hearing is the foundation building block for children to learn to listen and talk, become healthy readers and do well in school. Hearing powers spoken language, literacy, dreams, opportunities and lifetime success. Hearing powers a child's potential.

We believe every parent needs to know the status of their baby's hearing **first**. Because But the first days, weeks and months of a baby's life are critical. The earlier a child with hearing loss is identified, amplified and receiving help, the more opportunities that child will have.

As a subsidiary of the Oberkotter Foundation, with a 30 year history of supporting children who are deaf to learn to listen and talk, we have met the babies and talked with their families; we have watched the children grow up, make friendship in the mainstream and succeed through LSL.

Hearing First is a connection point for the families of children who are deaf or hard of hearing who want their child to learn to listen and talk and the professionals who support them. Join us here at Hearing First to connect and collaborate. Together let's power potential.
